SKILLS

- Java Programmer
- Python Programmer
- R Programmer
- HTML , CSS, Javascript
- Microsoft Suite, Photoshop, Illustrator

LANUGAGES

- English
- Chinese
- Japanese

OBJECTIVE

I am a second-year Computer Science student, who is seeking to gain experiences and skills in IT. With an educational background related to topics including data analytics, coding algorithms, developing and analysing information systems, I am curious to learn about their applications in a professional setting and to get hands-on experience in software development.

EDUCATION

Bachelor of Computer Science
University of Queensland | 2020 - Present
Expected Graduation: December 2021

International Baccalaureate
Queensland Academies Health Science Campus | 2016 - 2018

AWARDS

UQ Summer Research Scholarship (2020 - 2021)

Winning Team for ENGG1211 Summer Semester Project (2019)

OP 3 Graduate (2018)

EXPERIENCE

UQ Summer Research Program
University of Queensland | Dec 2020 - Feb 2021

- Aided in the creation and development of web-based language technology resources.
- Coded in the programming language R, to develop integrative grading exercises which are accessible publically to users via Binder (Jupyter Notebooks).
- Learned Anaconda Cloud, Docker and Github to develop virtual environments and packages.
- Worked remotely in a team that was based globally.

EXPERIENCE

Student Staff Partnerships
University of Queensland | Aug 2020 - Present

- Developed a set of guides related to effective group work practice, aimed at students in the Humanities, Arts and or Social Sciences faculty.
- Worked remotely in a team of five including students completing their masters/bachelors and a UQ employed staff member.
- Conducted and analysed primary research collected from focus groups, surveys and interviews.

All-Rounder
Plum Cafe Kenmore | Jul 2019 - Nov 2019

- Managed a high-pressure environment with initiative and efficiency.
- Used bilingual skills to converse with customers in a friendly professional manner.
- Serviced customers with formal dining skills including wine servicing.
- Adapted quickly to busy periods at the cafe.
- Learnt how to upsell products.

EXTRACURRICULARS

Ladies in Technology Marketing Executive
University of Queensland | Aug 2020 - Present

- Created several marketing posts for the Ladies in Technology LinkedIn, Facebook and Instagram pages.
- Designed and developed several visual posts to increase social presence using platforms including Photoshop, Illustrator and Canva.
- Involved in social events, supporting girls studying in STEM at UQ.
- Used Microsoft Word and Excel for sorting event details and checklists.
- Worked in a team of 30 members from a range of educational backgrounds including IT, chemical engineering and business.

Self-Taught Web and UX Design Development
Home | Aug 2020 - Present

- Used AdobeXD to design the layout of the website and UX experience
- Created website using HTML and CSS
- Manipulated Adobe Photoshop and Illustrator to develop graphics for the website
- Link to website: https://kimchi8.github.io/
